"Old Aunt Hannah."

BY DR. W. H. HOLCOMBE, OF VIRGINIA.

Let's wait a little longer Tom!
Before we westward go,
Let's wait for old Aunt Hannah's sake,
'Twould break her heart, I know,
Look at her in her corner there,
Her head is white as snow,
The last leaf of the good old tree—
We cannot leave her so!

In this old mansion was she born,
Her joys and griefs were here;
How well she loved and nursed us all
Through many a changing year!
See how she's smiling at the fire
And whispering something low!
She's thinking of our Christmas times,
O, long and long ago!

Beside yon crumbling garden wall,
Our gallant father lies,
Our good, old mother at his side—
Aunt Hannah closed their eyes!
She was the playmate of them both,
Some fifty years ago—
To leave those dear old graves behind
'Twould break her heart, I know.

When the old soldier parcelled out
His treasures, great and small,
Aunt Hannah he would give to none,
He gave her to us all.
We laid his good sword on his breast,
For he had charged us so—
While old Aunt Hannah knelt in tears—
Ah! Tom! we cannot go!

Her failing sands will soon be out,
The kindly angel come,
And lead the good, old, faithful soul
To our great Master's home.
And when we've marked her simple grave,
And dropped a tear or so,
We'll turn from the ashes of the past,
And westward gaily go!

California.

(*Extract from the Preface to the Manuscript of A. SCHWARTZ's History and Topography of California.*)

CALIFORNIA, possessing most of those gifts of "mother nature," which are distributed over the temperate and the tropical countries of the North American Continent, may be said to be one of the most favored and interesting countries in the world.

Besides its inexhaustible mines of gold, silver, quicksilver and tin, which are at present discovered, explored and partly opened, there are other mineral substances abundantly distributed all over California, which will prove not less important to the population, as the generally searched for precious metals.

But the mineral wealth of California is not all she can boast of; there are other resources more beneficial to the future welfare of the State, and to the permanent settlement of the same, which will at least equal her mineral richness. California possesses a rich and fruitful soil, well adapted to all agricultural purposes, a climate only to compare with that of Andalusia or Italy; rivers, lakes and bays of considerable size, and stocked with fine fish, crabs and muscles; immense woodlands with gigantic trees and luxuriant forest vegetation, inhabited by game of all kinds; prairies and natural pasturelands of great extent, affording wild food to stock the whole year round; and, in short, all and every thing that is required for the happiness of an energetic and industrious people, which California also possesses, in her mining districts as well as on her farm lands.

But we have not done yet; California offers not only all the necessities and most of the luxuries of life; it is also a country of natural wonders and romantic beauty, the land or the school for Artists and Naturalists! Here the astonished traveler will find all the curiosities that Nature can produce:—Groves of mammoth trees, the most wonderful man's eyes have ever perceived; cataracts, foaming and sparkling, sending their volume down over precipices of several hundred, yea! thousands of feet; valleys surrounded by perpendicular granite walls of thousand of feet high; natural caves of immense size, with interior chambers and lakes, living mud volcanoes or fumorales, geisers and mineral water springs, both hot and cold; and also the most rare specimens of the animal, vegetable and mineral kingdoms, from the grizzly bear and the American panther, down to the squirrel and yellow checked weasel, from the condor to the humming bird, from the rattle-nake to the horned toad, from the whale and dolphine to the anchovy, from the mammoth tree to the tedra or poison-oak, from the sun-flower to the forget-me-not, and from the precious metals to paving and lime stone.

California, a country rich in mineral and agricultural resources, a perfect panorama of romantic scenery, from one end to the other, a cabinet of natural history in itself, and inhabited, as it is, by the most enterprising, healthy and adventurous members of the human race of all shades and shapes, must certainly be one of the most interesting subjects for a work of the character of our present publication, and should be read and circulated extensively.

ANECDOTE OF GENERAL JACKSON.—"When General Jackson was President of the United States," said an aged laborer in the Presidential garden, a few years since, "he could tell an honest man from a rogue when he first saw him. I remember that a clergyman with a stiff white choker, and an untarnished suit of black, called on him one morning when he was overlooking some work that I was performing in the garden, and requested an appointment to some office, saying:

"General, I worked harder for your election than many of those upon whom you have already bestowed office."

"You are a minister of the Gospel?" said old Hickory, inquiringly.

"Yes," said the clergyman, "I was a minister, but I thought I could do better by becoming a politician. So I stumped the district week days for you, and preached for the Lord on Sundays."

Old Hickory turning short towards him, and looking him full in the face, said:

"By the Eternal! if you would cheat the Lord you would cheat the country. I will have nothing to do with you nor any like you. Good morning," and he walked rapidly away.

I never shall forget the look of that hypocritical clergyman. Had the last judgment been set, and he before the great white throne, I doubt whether he would have looked more blank and chop fallen."

MATRIMONY.—Addison has left on record the following important sentence: "Two persons who have chosen each other of all the species, with the design of being each other's comfort and entertainment, have in the very action bound themselves to be good humored, affable, joyful, forgiving and patient, with respect to each other's frailties and imperfection to the end of their lives."

TWO IN A BED.—Ned and Charley were two room mates, but they occupied different beds. Ned's apparatus was so situated that he could get in at either side—that is to say, there were two fore sides; which Ned found very convenient.

One night Ned and Charley had been out, and on returning, which they did near morning, both were considerably elevated. However, they walked to their room with an air that seemed to say, "not so very drunk after all," and sought long and patiently for matches and lamp. After knocking the pitcher off the washstand, and smashing the looking glass, they finally gave up the search and went to bed.

Went to bed—yes, that's the word, but owing to the darkness and confusion of their senses, they made a slight mistake. In short, Ned's bed had the honor of receiving the two friends—Charley getting in on one side, and his friend rolling in on the other.

"I say, Ned," cried Charley, touching somebody's calf, "there's somebody in my bed!"

"Wonderful coincidence!" exclaimed Ned, feeling a strange elbow in the neighborhood of his ribs; "there's some one in my bed too."

"Is there, though?" cried Charley, "let's kick 'em out!"

"Agreed!" said Ned.

And accordingly the two friends began to kick. It lasted about a minute and a half, and Ned was sprawling on the floor. Charley was left in possession of the bed. For a moment all was silent.'

"I say Ned," cried Charley.

"What?" asked Ned, sulkily.

"I kicked my fellow out."

"You are luckier than I am," said Ned, "for mine has kicked me out!"

.....Some one writing from Merced county to the California *Farmer*, says:

"Many new reapers have been introduced there this season, their introduction being a great saving of labor and expense. There are many large farms in this valley. Mr. Ingoldsby has 500 acres of wheat and barley, and will realize 12,000 or 14,000 bushels. The writer says there will be 150,000 bushels of wheat in that valley the present season. He also writes enthusiastically in regard to the fruit crop, saying there is such an abundance of grape, peaches and apples, that no one need complain. We know Merced Valley is one of the beauty spots of our State, and we rejoice in its prosperity."

It would be as well one would naturally think, to write to a local paper, as to send it to the *Farmer*, or any other bay paper.

THE PAVEMENT OF LONDON.—The pavement of London is one of the greatest marvels of our time. It covers nearly 3,000 acres, two-thirds whereof consist of what may be called mosaic work, done in plain style, and the other third, of smooth flagging. Such a series of works for transcends in quantity, the Appian Way, which was the wonder of ancient Rome, and which cuts but a poor figure as contrasted with one of its commonest streets. The ancient Consular Way was but fifteen feet wide in the main, and was filled in with blocks of all shapes and sizes, joined together and planed only on the surface; the length of its devious course, from north to south of Italy, was under 300 miles. The paved streets of London number over 5,000, and exceed 2,000 miles in length.

....."Two young ladies of this city [Philadelphia is the home of the writer] were lately spending the summer in northern New York. During their visit they took several long rides with the daughter of their host about the country. On one of these occasions—as they had been traveling some distance, and the day was warm, and as a trough of running water stood invitingly by the road side—they concluded to give their pony a drink. One of the city ladies agreed to get out and arrange matters for this purpose. The others remaining in the carriage, and deeply engaged in conversation, for some time paid no attention to the proceedings of their companion. When, at last, surprised at the long delay, they turned to ascertain its cause, they discovered her endeavoring to unbuckle the *crupper* (this being the name, I believe, of the strap which passes around the horse's caudal appendage). In amazement, they inquired, 'What in the world are you doing that for?' she naively replied, '*Why, I'm unbuckling this strap to let the horse's head down so he can drink!*'—*Harper's Monthly.*

A colored cook expected company of her own kind, and was at a loss how to entertain her friends. Her mistress said: "Chloe, you must make an apology." "Ia! missus, how can I make it? I got no apples, no eggs, no butter, no nuffin to make it wid."

MISS AUSTIN'S PANTS.—Miss Harriette N. Austin, editor of a reform paper in Danville, N. Y., devotes an article to her clothing. Here is an item: "My pantaloons are all cut at the bottom like gentlemen! I like them better than straight ones; and those which some ladies have worn, full gathered at the bottom; are 'unmentionable.' My pattern was cut by a tailor, *his wife taking the measure.*" The spinster's precaution, as stated in the last sentence, was doubtless intended to show that what she was after at the tailor's shop was 'measures, not men.' Nice girl is Harriette; not young enough to be giddy, certainly; but rather lunar on pantaloons.

A WOVEN SHIRT.—Thomas Hall, a linen weaver in Ireland, has finished a shirt entirely in the loom. It is woven throughout without seams and very accurately and neatly gatheted at the neck, shoulders and wrists. The neck and wristbands are doubled and stitched; there is a regular selvage on each side of the breast; and where stitching ordinarily is, so t is in this shiat. In short, it is as perfectly finished as if made by an expert needle woman. The shirt has been exhibited to several persons in the linen trade, who are completely satisfied that it is actually the production of the loom, without any assistance from the needle.

LIFE.—Man has two minutes and a half to live—one to smile; one to sigh; and a half to live, for in this minute he dies.

But the grave is not deep; it is the shining tread of an angel that seeks us. When the unknown hand throws the last fatal dart at the head of man, then boweth his head, and the dart only leaves the crown of thorns from his wounds.—[Jean Paul.

☞Can it be, after all, that Eve's apples was a coronet? "Lucifer, son of the morning," was one of the "principalities and powers," and Archangeless Eve might sound better than Mrs. Adam. "The son of God saw the daughters of men that they were fair, and took them wives of all that they chose;" we are told of those primitive times. And certainly, the first murderer, Cain, was worthy to be the offspring of a Lucifer match.

....Dr. Adam Clarke, who had a strong aversion to pork, was called upon to say grace at a dinner, where the principal dish was roast pig. He is reported to have said, "O Lord! If thou canst bless under the gospel what thou didst curse under the law, bless this pig!"

"TROUBLE NEVER COME SINGLE."—Saw a lady's "worser half" carrying a pocket full of gaiter boots to the store. Wrong sizes. Asked him why he didn't remember the size of madam's track. "Can't do it! she wears No 5½ gloves and 3½ shoes, or 3½ gloves and 5½ shoes; and there! I've got 'em mixed again, just because you spoke. Never can remember those numbers!" and he turned back to ask his wife.—*Sierra Citizen.*

Political.

We give the Douglas Platform together with that of Breckenridge, so that our readers may compare their respective qualities, if they are qualified to do so. It is fair to suppose failures will take place in most instances, as wiser heads than any very common in this region have tried and failed. Yet perhaps 'the wayfaring man though a fool,' may get light enough by studying, to indicate the path of duty for himself at the coming election.

Political excitement appears to increase with the heat of the weather, and debates of all shapes and sizes, acrimonious harrangues, by those who *know*, may at all times be heard about the different "seats of custom" in our town. The quarrel is altogether as it commenced—between the Democracy. Breckenridge men were at first rather ahead in the manifestation of themselves, but their preaching was very effective in raising up mighty men to do battle, for Douglas, and now he is not at all behind in the numbers of his supporters or in the ability of the same. It is about an even thing; supposed to be.

So far as the State is concerned, judging from local journals and the information so far as it at present can be gathered, the split of the Democracy is about in the centre. More journals have hoisted Breckenridge than have Douglas, but there are a number that incline most decidedly to the latter, and which will undoubtedly sooner or later put his name up.

It is true of parties to some extent as of some individuals. Something has occasionally to go adversely to their interests to keep them within the bounds of common sense and common decency.—Every now and then an individual is seen, to whom a thrashing is as essential to his well being, as fresh air. The Democratic party has for a long time enjoyed uninterrupted success, per force of which the party has waxed fat and *pussy*, and is moreover disposed much to kick up. Its leaders, or would be leaders, consider themselves autocrats and deserving of pensions; and are ready to quarrel with one another as to do anything else. For and to this the troubles of the Democratic party in this county are to be mainly attributed. When one leader couldn't do as he wanted to, he'd bolt, and so would another and others "big bugs" in their own estimation.—This year witnesses new local combinations and changes, and anything but common respectable feeling and harmony. Men that last year thought alike have now diverged as widely as possible, and such are the differences and such the anarchy in the party that it is doubtful if common party usages can be observed by the selection of candidates in Convention. We repeat it that there are parties as well as individuals that need reverses, and if the Democracy don't need a whipping just now, we are no judge of their necessities. They will get it, too; that's more—if they go on at the rate they have started.

.....Divorces are very common in this State, and well founded complaints are loudly heard at times coming from those who really feel an interest in the welfare of society, because the bonds between man and wife are so loose, or rather that they are so easily sundered. Parties joined for "better or for worse," should stay joined if "worse" *does* come unless for some extraordinary reason, else the marriage contract is but a license for special fornication. The ease with which man and wife can be made *two*, induces many in wedlock to try for a change and new combinations.

In a divorce case before the District Court last term, Judge BURKE divorced the parties from *bed and board* only, not annulling the high contract they not many years ago entered into. Of course the parties are separate, yet neither can marry, and must waste most of their sweetness hereafter "on the desert air." The decision of the Judge is exceedingly healthy and was such more common, less divorces would be heard of. A good many have been married in this vicinity within a year—domestic squabbles probably arise—it is well for those to whom these remarks are dedicated to anticipate and remember Judge Burke's decision.

.....Judge BURKE has left for Sacramento. He it appears feels interested in the next census, and so is Mrs.— Johnson....Col. TERRY had a horse badly cut, lately, by his lying down on a piece of glass at Lovejoy's Mills. He was a valuable animal of the Black Hawk stock, and could trot in 2:42½ ... Wanted in this county two ladies to teach school, as ugly looking as possible. They have to prove that they are over 35 years old, and be examined besides. The reasons that the above conditions are imperative, is that if they are young and pretty, they will be chased from pillar to post by the masculine persuasion, and a woman can't be courted and keep school all at once....The names of as many as ten individuals in this and Merced counties, as candidates for the next Assembly....The census taker took Mariposa, Thursday last. If he had come later in the season, he would have found the population larger ... Hot weather has come at last, the thermometer standing in the shade an average of more than 100° in the heat of the day.

.....The Fall Races of this, Merced and Fresno counties, commence at BIGHLE'S, Antelope Ranch, Merced county, August 16th. It will probably be the best meeting ever held in this region. The improvement of stock has been very considerable, particularly in Merced within the past two or three years, and many Rancheros and Farmers are anxious to display the qualities of some favorite of their own breeding. There will be more horses of quality upon the ground, and more races will, it is certain, occur, than ever before upon a similar occasion in the district mentioned. Some eight or ten horses are already entered for the main race, the stakes of which are something of an object.

.....Last Tuesday about noon the cry of fire resounded through our streets. It was no false alarm, for smoke was issuing in abundance from the small building at the corner of Bullion and 5th sts., near MIKE MINGLE'S stable. As it was discovered in time it was easily extinguished, and serious consequences avoided. The origin of the fire is not understood.

STATE ITEMS.

....The Democratic State Central Committee met in San Francisco, yesterday. Their proceedings are looked for with considerable interest, as it is expected, that some attempt will be made to concentrate public opinion, or rather party influence upon our Presidential candidate. Report has it that the Committee itself is about equally divided upon Douglas and Breckenridge, and if so they may not agree, and quite as likely as any way will not; and matters consequently will be worse than ever.

....The ladies of Big Oak Flat it is understood, intend giving a Fair on an extensive scale, about the 1st of September. The objects of it we have not learned, but suppose it is to promote the interests of humanity and the human species—of course it is. If they will tell us what they want to do, or rather what they are going to do, we will advertize it for nothing, just because it is the *ladies*, &c., and benevolence; which sometimes gets a great 'boost' from the active efforts of the fair sex.

....Difficulties are expected in Columbia, Tuolumne county, on account of the Peoples ditch. It has been sold for a nominal amount, and those who constructed it have been cheated out of their interests, it appears. The old ditch company bought it of one Davis, between whom and the company some complicity is evident, and the miners swear to destroy the ditch, which they can do in a short time, if they set themselves about it. The act would be suicidal, however.

....Another bit a week daily paper is to be started in San Francisco one would think the San Francisceans would have papers enough after a while several having been started of late.

....The suit of Green against the leaders of the Vigilance Committee of '56, terminated the other day in the District Court, San Francisco; the plaintiff got $150—not enough to p the J.

....There are some men we know of, who haven't supported a "regular nominee" for years, now loudly calling upon the democracy to support Douglas, because he was "regularly nominated," getting one vote more than the rest at Charleston. Such had better urge Douglas's election upon other grounds.

....The individual attacking anonymously, and libeling the Judges of the Supreme Court, of this State, charging them with bribery, and every thing else, almost, has been found out, so stated.—His name is not yet public.

....The Mountain *Messenger* relates that two little children in a mining camp in that vicinity, picked up a live rattlesnake, found by them somewhere about their play ground, and carried it in their hands for a considerable distance in the principal street.—The nature of their pet being discovered, they were made to drop it, when the venemous reptile instantly coiled itself up, and prepared to spring, and it was immediately killed. Appearances went to show that the little boy and girl had been playing with it for some time, before bringing it into town.

....G. W. Patrick, Esq., one of our Democratic Delegates to the Charleston Convention, has reached his home in Sonora. He gave his proxy to Representative Scott, who acted for him in the Baltimore Convention, and assisted in the nomination of Breckenridge. It is understood, *that* action meets the approval of Maj. Patrick.

....There is a couple of "rare ducks" for preachers, preaching in Stockton. One is the Rev. Mr. Anderson, Presbyterian, (*new school.*) and the other is the Rev. Mr McDonald, Episcopal. They believe in choice amusements, and not only have a "hankerin" after, but go to them every time. The former is said to be 'heavy' in rowing, has a boat, is particularly weighty in base ball; likewise knows something about an "ass." In two or three sermons recently, he has fully demonstrated the connection between christian duty and these pursuits (according to the *Argus.*) The latter, the Rev. Mr. McDonald's *forte* is shooting; he can do however a few other things in a mild way. We saw him not long ago at a pigeon shooting arrangement in Stockton, and he was knocking the heavenly dove out of its terrestial carcass on the wing every pop. By all this, however, we have no intention of blaming these Revs, for were we preaching we would probably do the same things.

....The editor of the Democrotic *Age*, Sonora saw a *glorious* eclipse either the 18th or 19th he don't know which. Some here saw it on the 19th.

....Tuolumne county is claimed both for Douglas and for Breckenridge. The majority of public opinion in favor of each, is stated to be immense.

....Gov. Downey is said to have said of a candidate for gubernational appointment, "He is only an Irishman, I sposin' he did.

...."Hark from the Tooombs, (of Georgia), a doleful sound," so we thought on reading a recent speech of his on "Property in Territories.

....The State Fair commences in Sacramento, Sept. 19th, and containing till the 27th—very liberal premiums are offered—going, if the *accommodations* of the California Steam Navigation Company didn't give out previous, as well as those of Fisher & Co. between here and Stockton.

....Vanderbilt has at length consented to carry the Mail between New York and San Francisco, for the postage; so through his great goodness, we are able to get some Eastern exclanges.

.. G. P. R. James the "two horseman" novel ist is dead.

....The *Telegram* and Evening *Gazette*, San Francisco have been consolidated.

... Prices of passage East, by the *Golden Age*, were $250, first cabin; $125, steerage.

....The Salmon Fishery in the Sacramento river, has let up this year. One would think it would, and that the Salmon instead of trying to get up that yellow stream thick with mountain mud, would move north.

....It is a manifest trouble to some Republicans that their candidate "Abe" is a doeliist, he having accepted a challenge from Gen Shields, some years ago. They met to fight, but didn't, owing to the intervention of friends.

....Mr. Aldrich the "lone Republican of Fresno," is reported to have gone away.

.... Gen. Harney recently came down from Oregon, and went East on the last Steamer

....A steam fire engine is shortly to make its appearance in San Francisco. The system of management of the fire department in many cities East, has much changed by the introduction of these engines. A paid corps of comparatively few firemen instead of a numerous volunteer force, is one of the changes.

....Judge Ames has removed his paper, the San Diego *Herald*, to San Bernadino; surely the glory of that seaport the San Diego aforesaid has departed.

THE TOWN OF TIPSILANTY.—Struck by the beauty of the surrounding country, he leaped from the ground in his enthusiasm, and cracking his heels twice together while in the air, he uttered the stirring cry of, "Tip—tilanti!" from which memorable circumstance the place thereafter took its name.

.....A—"Why is it that women are so frequently robbed by pickpockets, in pub ic carriages; they must be conscious that the rogues are feeling about them?"

B—"Yes, but a fellow feeling makes them wond 'rous kind."

....."Oh!" sighed LULU, "would that my existence might be like that of these fair birds—one constant, unwearying dream of love."

"Aye, my dear," replied Old Joe, "they are indeed a happy race, and the Spring is to them their happiest season, for they are now engaged in pairing."

"And where," inquired the curious Lula, "do they go to pair?"

"Up into the pear trees, probably," rejoined old Joe, with a quaint smile.

.....We met a grammarian who had just made an unsuccessful tour through the mines, conjugating, or rather cogitating, thus: "Positive, *mine*; comparative, *miner*, superlative, *minus*!"

PORK AND BEANS.—Mr. James Bean was lately married to Miss Eliza Hogg. What can be more natural than a union of pork and beans? But this union seems one sided—only one bean to a whole hog.—*Valley Times.*

Never mind, more beans will be shelled out in time.—*Warsaw Democrat.*

After poles are stuck, and pods grow.

.....CROCKER removed some time since, to the basement of Grandvionet's Building, corner of Main and 5th sts. A very comfortable place it is this hot weather. The best of lager, liquors, &c., cool and comfortable to take, always to be had.

Some miserable thief, one night last week, stole the new rope recently attached to the bell of the Methodist Church in this place.

Celebration at Bear Valley.

To-morrow (Wednesday) will occur at the "Benton Mills," on the Merced River, below Bear Valley, the celebration of the completion of Col FREMONT'S Railroad; constructed within the past year for the purpose of conveying quartz from the Pine Tree and Josephine veins, situated on the northern end of Mt. Bullion, about 1400 feet above the river. The ascent from that point where the mills are built, to the veins, is very steep in places, and difficult; so much so that any great amount of quartz could only be taken down by teams with great trouble and expense. The building of the new mills of 48 stamps last year, rendered some other mode of getting ore down (as about 80 tons are crushed per day) a positive necessity, and the railroad was consequently commenced. The road begins near the Pine Tree vein, and runs around the points, following the indentations of the mountain till the mills are reached. It is about four miles long, and has a regular grade of about 7 feet per 100 feet, which enables breakmen to easily govern heavily laden cars, and also to return the carriages to the vein by mule power, easily.

This railroad will prove of immense profit to Col. FREMONT; and the series of works commenced with building a dam across the Merced; putting up a mill of 16 stamps, and one of 48 at the foot of Mt. bullion; extending the quartz operations in the interior of the mountain; constructing first a wagon, and then a railroad, etc., seem to be completed now, and the whole is in beautiful working order.

The expenses for blasting the quartz rock; for breaking and hauling it; for crushing, and extracting the gold, will not exceed now $5 00 per ton; and as the Colonel is crushing 90 tons a day, with an average yield of from $25 to $30, there will be left a large balance in his favor, which will soon enable him to surmount all the difficulties that are still in his way; and to come out "all right."

We congratulate Col. FREMONT on new this success, and hope that his enterprising genius may soon be felt all over the Estate; and particularly in the town of Mariposa, which is in much need of enterprise and energy.

The celebration, as we have said, will take place at the mills to morrow. At about 11 o'clock, a train of 24 cars will leave the Pine Tree "Station," for the conveyance of those desirous of attending.

A collation will be served, champaigne drank and speeches made as a matter of course; and doubtless all who attend will have an opportunity of enjoyment to their heart's content. The sight of the road, mills, dam, &c., would alone be a sufficient gratification to one having never seen them, to repay the trouble of the trip thither.

..... Not long ago, we met a very pleasant party in Yo Semite, consisting of Capt. McDougal, of Mare Island, and Lady; Mrs. Voorhies, of Alameda county; Dr. H. M. Gray, San Francisco; Dr. Carpenter, Mr. Gookin, and last but not least, by a long chalk, Capt. Doling, of the steamer *Guadaloupe*.

For some little well meant attention, the especial value of which we have very grave doubts, we received last stage a very fine Hat, for which the party, one and all, will please accept our thanks, and may the two or three days of wandering about waterfalls, getting ducked, bogged (that's Doling,) be pleasantly remembered for years to come.

....."Let us speak of a man as we find him," says the song. So we will. About two dozen distinguished fellow citizens were drunk all day after BATES' Ball in Bear Valley. "And if a man blames we'll remind him" that he will get his cocoanut punched if he says much about that fact.

.....Mr. GALEN CLARK, who resides at the South Fork, last week, killed a large grizzly, near the head of Big Creek. Mr. Clark was traveling in a trail when he unexpectedly met his bearship face to face and quite near. A single ball from his unerring rifle, in the head, however did the business, and Bruin ceased his tramp forever in the fastenesses of the mountains.

.....That beautiful picture of Col. SCHWARTZ'S, entitled the "View of Mariposa," is to be raffled for, August 4th, (Saturday) at VAN DYKE'S saloon, as may be seen by reference to advertisement. The one who wins it has certainly a picture of rare merit and beauty. It may be seen at the saloon mentioned.

.....Our State Delegation to Congress, Gwin, Latham, Scott and Burch, was on its way home, at latest accounts. Part come by Water and part overland. By this time they should be in San Francisco. The report that Breckenridge was coming to this State with Latham, is incorrect. He is detained by sickness.

..... If the gas manufactured at present in the bar rooms and on the street corners in this place, would only burn, what an illumination could be had. As it is, however, it serves only to offend the ear and the nose, when it escapes from these high pressure patent Union savers.

.....The Mariposa and Princeton Base Ball Clubs are to play a game of Base Ball near Princeton, Aug. 11th, for the sum of $200. The preliminaries were arranged Tuesday last, and a forfeit of $50 a side put up.

.....Fruit is ripening rapidly in the Gardens about and will shortly be abundant. Peaches were never finer. Frost injured grapes early in the season and there will not be a large yield. Yet the quality may be fine and the fruit larger, from the fact of the vines not being so heavily laden as before.

BIRTH:

In Mariposa, Friday, July 27, the Wife of Robt. McCready of a DAUGHTER.

DIED:

At Hamlin's Ranch, Merced River, on the evening of the 21st July, MRS. ROSALINE L., Wife of W. L. Hamlin, aged 26 years.

Mrs. H. was born in Painsville, Lake County, Ohio, from which place they removed on the 15th of June, and arrived at their California residence on the 14th of July. During the short time she was permitted to stay with us, her amiable qualities won the esteem and friendship of all with whom she became acquainted. Her loss has cast a gloom over many friends, whose tears were freely mingled with those of her devoted husband and all her immediate relations. These have the consolation to know, that in their truly mournful bereavement, there are many whose feelings sympathise with them in view of the severity of their loss. R. W. H.

CITY MILLS,

MAIN ST., WEST END—ESTABLISHED 1850.

THE undersigned, confident from their long experience in the Milling business, of their ability to manufacture the best description of FLOUR, would invite the attention of parties wishing to purchase, to the established reputation their brand has acquired in the Southern Mines, and wherever introduced, for its purity and superior quality.

They would take this occasion to inform their friends and the public, that having added to the premises, a FIRE PROOF BRICK STORE HOUSE, 40x80 feet, capable of storing 600 tons grain—improved and perfected the machinery of the Mills, their increased conveniences enable them to confidently guarantee every sack of Flour branded "STOCKTON CITY MILLS."

To Merchants and Farmers, they would add, that they continue to pay particular attention to grinding all kinds of grain. In conclusion, they would respectfully refer all those unacquainted with the Mills, to the principal Merchants of Stockton and the Southern Mines. SPERRY & CO.

Mariposa Gazette

SACRAMENTO CORRESPONDENCE.

Sacramento City, July 23rd, 1860.

Editor Gazette:—The "Political Cauldron" is about as hot throughout this part of the State as it could be made by *gas*. Five days ago Douglas would have swept the State like a whirlwind, to day the fight would be very nearly triangular, two weeks hence Breckenridge will have an army of at least fifty thousand voters, and will gain strength daily, until the 5th of November.

Hundreds in this county who first intended to support Douglas have changed, (your humble correspondent among the number,) to Breckenridge, for various reasons, first it was believed that Douglas was regularly nominated, but we now have abundant evidence to the contrary, although it is granted he had what little regularity there was, there was not enough to bind the most *fastidious* stickler to *his* cause, when against principle. The difference in the two Platforms don't amount to so much as the company the two are found in; but I hope for humanity sake that Douglas's supporters in the East are of a better class than the half-breed blacks, who claim him in this State; and while I entertain great respect for Mr. Douglas, I can not afford to fraternize with the clique who have taken the whole thing into their own hands, in this State, and even go so far as to call the Douglas ratifications, "Anti Lecompton Douglas ratifications, &c." In this city such was not the case, although it had so been planned, they found that they were on the wrong scent, and wisely listened to Administration men without interfereing; but in most other places they felt so safe that they were quite saucy, and in San Francisco particularly, they rendered themselves really obnoxious; and if rumor may be relied upon, at least one thousand voters were changed by the action of that meeting, from Douglas to Breckendidge the same evening.

A call has been made for a meeting of the Democratic State Central Committee, and it is to be hoped that every member will be present, (proxies are not allowed.)

From newspaper accounts, the Committee are about equally divided, if so, perhaps their wisdom may be able to make some sort of compromise which may prove satisfactory to the voters, and present a "solid front" to the Lincolnites; which might be done by nominating a joint electoral ticket, is the opinion of many democrats, with instructions for the voters to head their ticket, with the name of Douglas or Breckinridge, as they may choose. And whoever receives the majority, to have the Electoral vote of the State. No reasonable man could object to this mode of proceedure, which would at least give the vote in the Electoral College to a Democrat, and prevent the bare possibility of its going to the black republicans, who now claim it by reason of our dissensions, which they are trying to widen by every means in their power. But it is said the so called "old line Douglas men," will object to the above plan, and go it on their own 'curvature' for awhile, and if they find at last that defeat will overtake them, as heretofore they will then adopt Forney's plan and fuse with the Blacks, which would doubtless be more to their tastes. Ancient Guard.

MONO CORRESPONDENCE.

Mono, July 15th, 1860.

Mr. Editor—Believing that any information of importance from this side of the Sierras would be acceptable, permit me to give you the particulars of an expedition that starts to-day from this place for the South, and intend prospecting as far as the Colorado for minerals; principally for silver. A gentleman of great experience as a silver miner, both in Arizona, Lower California and Virginia City, accompanies the party as principal prospector. He came over here in March last, from Arizona, for the purpose of organizing a company for prospecting that country, and hearing of the richness of the Black Rock district, he commenced prospecting there; but the war having broke out, the unsettled state of that country induced him to adhere to his original determination. While in the Black Rock country he fell in with Capt. J. E. Stevens (the commander of the present company) and party, from Marysville, and a Mr. G. W. Hill, of Tueson. They secured the services of a mountaineer who is acquainted with the whole country, named John Moss. Desiring to have only mountain men, accustomed to all kinds of hard-hips they have, I think, as efficient body of men as can be found in the country. They have furnished themselves with everything they can possibly require; each man being furnished with a Sharp's rifle or minnie, and revolvers, and having a pack and riding animal to each. An accident occurred to one of the party, Mr. James Mooney, who, by being thrown from his mule, broke some of the small bones of his ancle, and was compelled to remain behind at Mono until he gets well. The party had three splendid American mules stolen three days since, which have not been recovered; supposed to have been stolen by Mexicans, who have gone over on the Coulterville route to California.—The following is a list of the Company: Capt. J. E. Stevens, Capt. James McElliot, Col. George J. McDougall, Capt. Charles W. Allen, G. W. Hill, John Bird, John Moss, John Bagaman, M. Harrington, Wm. H. Joye, Ira J. Champlin, Henry O'Hara, James Mooney, M. Sigins, Augustus Speers, Reuben Cross, Seth Squires, and three or four others.

Within the past ten days there has been over ten veins, running parallel with each other, supposed to contain silver, discovered, named as follows.

Masonic Lead, Osborne do., Hopkins do., Weidy do., Comet do., Allen do., Hartford do., Royal Tiger do., Green do., Haley do., Lyons do., Tiger do.

Mr. Hopkins, the Recorder, has taken specimens of the different leads to San Francisco for assay, and is confidently believed he will obtain good results.—These leads are situated in a northerly direction from Mono.

Our worthy Expressmen, Messrs. McFarland and Parker's institution, the "Pony Express," still make their trips regularly weekly, from Carson Valley, Coulterville, Mariposa and Sonora; and the Sonora trip under every difficulty, having to walk a large part of the way from the Yo Semite. When you consider that nine-tenths of our population are from Visalia, Mariposa, Calaveras and Tuolumne, the importance of this Express cannot be underated. They are meeting with a liberal patronage.

Any letters for this place must be directed to Sonora, care of Mono Pony Express; Sam Boose, Agent, will meet with prompt attention. Our ditch will be in in a week, from Virginia Creek—nothing else of importance. J. A. T.

P. S.—The Pony Express came July 16th with a large letter and newspaper mail.

......Four hundred gallons of lager are manufactured weekly in this place, and the supply is hardly equal to the demand. An excellent article is made.

Special Notice.—The Medical and Surgical Institute of Dr. L. J. CZAPKAY, is already secured in a position which places it, as well as its proprietor, far above the assaults of envy and professional malice. In the schools of France, the highest prizes are often awarded to practitioners in this department of Medical science, and they occupy with others, an equally lofty position in the profession. Ricord is an illustrious example, a shining light among the philosophical stars of his age in Europe and Dr. Czapkay has fully equalled him in this country, as a proof of which, the Philadelphia College of Medicine complimented him with a Diploma, and the honorary *ad eundem* degree. Selecting this as his field of operation, although qualified as a graduate of the University of Pesth, and late Chief Surgeon of the Hungarian Revolutionary army, for more extended labors, Dr. L. J. Czapkay has bent his earnest attention to the cure of chronic and private diseases in which he has become so great an expert that he is now regarded as the leader in this branch of his Profession throughout the United States, and his portrait and biography are published as matter of interest to their readers in the most exclusive journals. The Doctor's offices are at his Medical and Surgical Institute, on Sacramento street, corner of Leidesdorff, nearly opposite the buildings of the Pacific Mail Steamship Company.

DOUGLAS PLATFORM.

[Adopted at Charleston, 1860.]

Resolved, That we, the Democracy of the Union, in Convention assembled, hereby declare our affirmation of the resolutions unanimously adopted and declared as a platform of principles by the Democratic Convention at Cincinnatti in 1856, believing that Democratic principles are unchangeable in their nature when applied to the same subject matter; and we recommend as our further resolutions the following:

That inasmuch as difference of opinion exists in the Democratic party as to the nature and extent of the powers of a Territorial Legislature, and as to the powers and duties of Congress, under the Constitution of the United States, over the institution of slavery in the Territories.

Resolved, That the Democratic party will abide by the decision of the Supreme Court of the United States over the institution of slavery in the Territories.

Resolved, That it is the duty of the United States to afford ample and complete protection to all its citizens, at home and abroad, and whether native or foreign born.

Resolved, That one of the necessities of the age, in a military, commercial and postal point of view, is a speedy communication between the Atlantic and Pacific States, and the Democratic party pledge such constitutional enactment as will insure the construction of a railroad to the Pacific coast at the earliest practicable period.

Resolved, That the Democratic party is in favor of the acquisition of the Island of Cuba on such terms as shall be honorable to ourselves and just to Spain.

Resolved, That the enactments of the State legislatures to defeat the faithful execution of the fugitive slave law are hostile in character, subversive of the Constitution, and revolutionary in their effect.

BRECKENRIDGE PLATFORM.

Resolved, That the platform adopted by the democratic party at Cincinnatti be affirmed, with the following explanatory resolutions:

First—That the government of a Territory organized by an act of Congress is provisional and temporary, and during its existence all citizens of the United States have an equal right to settle with their property in the Territory, without their rights, either of person or property, being destroyed or injured by Congressional or Territorial legislation.

Second—That it is the duty of the federal government, in all its departments to protect the rights of persons and property in the Territories, and wherever else its constitutional authority extends.

Third—That when the settlers in a Territory, having an adequate population, from a State Constitution, the right of sovereignty commences, and being consummated by their admission into the Union, they stand on an equality with the people of other States, and a State thus organized ought to be admitted into the Federal Union, whether its Constitution prohibits or recognizes the institution of slavery.

Resolved, That the democratic party are in favor of the acquisition of the Island of Cuba, on such terms as shall be honorable to ourselves and just to Spain at the earliest practicable moment.

Resolved, That the enactments of State Legislations to defeat the faithful execution of the Fugitive Slave Law, are hostile in character, subversive of the Constitution, and revolutionary in their effect.

Resolved, That the democracy of the United States recognize it as the imperative duty of this government to protect the naturalized citizen in all his right, whether at home or in foreign lands, to the same extent as its native born citizens.

Whereas, One of the greatest necessities of the age, in a political, commercial, postal and military point of view, is a speedy communication between the Pacific and Atlantic coasts; therefore be it

Resolved, That the national democratic party do hereby pledge themselves to use every means in their power to secure the passage of some bill to the extent of their constitutional authority, by Congress, for the construction of a Pacific Railroad from the Mississippi River to the Pacific Ocean, at the earliest practicable moment.

..... Some time ago a party of three coming over from Mono to Yo Semite Valley, stoped on the deep snow, to make some hot coffee and warm some beans. Wood was handy, and they built up a rousing fire.—About the time the aforesaid coffee, beans was ready for consumption, the whole arrangement suddenly disappeared. It appeared however, that the fire had melted the firm snow crust, and that the fire, and all had "drapped" down about thirty feet where it was boiling, sizzling and stewing and still sinking. As it was impossible to get at it, the party sorowfully shouldered their packs and marched.

......We don't believe a man a democrat who is not willing to abide the necessities of the party at this junction, and vote for the candidate strongest against Lincoln, and the Republican party. Before long it can but be clearly seen which of the two Douglas or Breckenridge has the preponderance east, and then let us like democrats give the candidate the support of the State.

......But about two of the San Francisco journals support the democracy. The rest are professedly *neutral*, yet a decided inclination is observable in most toward republicanism. In Stockton two papers are Douglas, the *Argus* and *Democrat*, while the *Republican* is Breckenridge. In Sacramento every journal there except the *Standard*, weekly, is anything else than democratic.

......An accident at the Benton Mills occurred last week. The cars, heavily loaded, were allowed to run too far upon the unfinished platform at the mill, on which quartz is to be discharged; causing it to give way and precipitate the cars down the bank.

Those who had management of the train escaped without broken heads or bones, but some of them were badly bruised.

......James H. Lawrence, editor of the *Star*, was considerably injured on Friday last, near Bear Valley, by the falling of his horse, which he was riding very rapidly. He was senseless for some time after the fall, and had a narrow escape.

......Messrs. White & Hatch have built a new Steam Saw Mill, on the Middle Fork of the Chowchilla. It commenced to run last week. It is located in a finely timbered region, and Messrs. White & Hatch are experienced lumbermen.

......Mr. McCann or "Paddy McCann," as he is familiarly known, has in the past two years cut large lots of oak wood in the mountains about the head of Sherlock's. He has now started a team to this place, and wood will be promptly delivered per order. "Paddy" wishes it distinctly understood that he sells 128 solid feet of wood for a cord; or a load 4 feet high, 4 feet wide, and 8 feet long.

......District Court wound up last week. Less business appeared before it than at any term for two years. The Suit of Fremont *vs.* Seales, for that portion of the Mariposa or Fremont vein, lying just back of town, was decided in favor of Plaintiff. No one was sent to States Prison, a rare thing; and none to jail.

......Bates' Ball at the Oso House, Bear Valley, Wednesday evening, was largely attended, and the affair passed off to the satisfaction of all.

......Heavy fires are raging to the southward of this place, the smoke of which obscures the sky.—Such conflagrations, generally originating in carelessness, often do great damage, and too much care cannot be exercised by those camping out and using fire when danger of its spreading is manifest.

A LARGE, WELL SELECTED and general assortment of Wall Paper just received and for sale by J. B. CONDON, Express Agent.

UDOLPHO WOLFE'S SCHNAPPS.

A medicinal drink of eminently salutory qualities, manufactured by himself exclusively, at his factory at Schiedam, in Holland, and well known during the last twelve years throughout all the Atlantic and Western States.

It is made from the best barley that can be selected in Europe, with the essence of an aromatic Italian berry, of acknowledged and extraordinary medicinal properties. It has long since acquired a higher reputation, both in Europe and America, than any other diuretic beverage.

Analyzed, it is a *perfectly pure Liquor*, in its effects a mild and wholesome tonic. It is extensively used and approved by the medical faculty, the temperance people, heads of families, &c.

In Gravel, Gout, and Rheumatism, in obstructions of the Bladder and Kidneys, and in General Debility its effects are prompt, decided, and invariably reliable; and it is not only a remedy for these maladies, but in all cases in which they are produced by drinking bad water, which is almost universally the cause of them, it acts as a *sure preventive*.

For Fever and Ague it is one of the most efficacious preventive that can be resorted to

The Aromatic Schiedam Schnapps

Is consequently in great demand by persons traveling, or about to settle in new parts of the country especially, as well as by many in every community, where it has become known, on account of its various other remedial properties.

In all cases of a Dropsical tendency, it is generally the only remedy required, when adopted in the early stage of the disease.

In dyspepsia maladies, when taken in proper quantities, as a diet drink, and especially at dinner, it is found, by uniform experience, to be eminently efficacious in the most obstinate cases, when even the best of the usual remedies have failed to afford more than temporary relief. In cases of Flatulency, it is an immediate and invariable specific, and it may be administered in diluted and proportionate quantities even to Young Infants, in all those paroxysms of griping pain in the stomach and bowels to which they are especially subject, as well as in the cholic of grown persons.

Its judicious adoption in connection with the principal meals, or when a sense of exhaustion dictates its use, never fails to relieve the debility attendant upon protracted chronic maladies, low temperament and exhausted vital energy, by whatever cause induced. These are facts to which many of the most eminent medical men, both in England and the United States, have borne testimony, and which are corroborated by the highest written authorities.

Put up in quart and pint bottles, in cases of one dozen, with my name on the bottles, cork, and fac-simile of my signature on the label.

For sale by all the respectable Druggists and Liquor dealers in California and Oregon.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP

FOR CHILDREN TEETHING,

Which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves, and RELIEF AND HEALTH TO YOUR INFANTS.

We have put up and sold this article for over ten years, and *can say, in confidence and truth* of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the highest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten years' experience *and pledge our reputation for the fulfillment of what we here declare*. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

MRS. WINSLOW'S SOOTHING SYRUP.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILFUL NURSES in New England, and has been used with *neverfailing success* in

THOUSANDS OF CASES,

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will relieve almost instantly

Griping in the Bowels, and Wind Colic;

and overcome convulsions, which if not speedily remedied, end in death.—We believe it the best and surest Remedy in the World, in all cases of DYSENTERY and DIARRHŒA in CHILDREN, whether it arises from teething or from other cause. We would say to every mother who has a child suffering from any of the foregoing complaints; DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine; if timely used. Full directions will accompany each bottle. None genuine unless the fac simile of CURTIS & PERKINS, New York, is on the outside wrapper.

ATTENDING AND RESIDENT PHYSICIAN, L. J. CZAPKAY, M. D., late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, late Lecturer on Diseases of Women and Children, and Honorary Member of the Philadelphia College of Medicine. ☞Particular attention paid to the treatment of diseases peculiar to Women and Children.☜

Office Hours.—From 9 A. M. till 9 P. M. Communications strictly confidential. Permanent cure guaranteed or no pay. Consultations by letter or otherwise free.

Address Dr. L. J. CZAPKAY, San Francisco Cal.

Tribute to Merited Worth.

The ingratitude of man to his fellow man is so often met with in life, that testimonials, prompted by finer feelings of the heart, are oases in the life of those who sacrifice their best days in philanthropic devotion to the alleviation of the ills of frail mortality. Empiricism floods the columns of our press with fraudulent and fictitious letters, singing poeans to the worth of their own egotistical charlatanism. Below we append a certificate from a worthy man who, a brief period since, seemed destined to "shuffle off his mortal coil;" who looked forward to his dissolution with that pleasure which only those weighed down by the heavy hand of disease can. Contrary to hope, the ability of a skilful physician has restored him to his former health. Relieved from his terrible situation, and impelled by gratitude he makes known his case, and his remedial agent, and his statement is authenticated by a Notary Public. The demands of society imperiously command its publicity, and it is given more to warn the unwary than to sound the praises of a physician, of whom scores of like cases can be cited.

Remarkable Cure of Consumption:

The almost miraculous cure that has been effected in my case, prompts me to impart to those of my fellow creatures who may be suffering from like affliction, the source of relief, with a short description of my case. Several years ago, my health began to fail. I was attacked by general weakness and debility, which reduced me to the mere shadow of my former self. At that stage I sought medical assistance and expended large amounts, but without the least beneficial result. That fell destroyer Consumption, had already seized upon my vitals. I was daily drawing closer to the tomb; my physicians held out no hope of recovery; my strength had wasted, and I was in a state of almost utter prostration. I was informed by my physicians that they could do nothing for me except to smooth my path to the grave, when most fortunately I applied to Dr. L. J. Czapkay, and am now a well and perfectly sound man. It is difficult for me to express the emotions of deepest gratitude I experienced when realizing the immeasurable service I have received at the hands of Dr. Czapkay and I feel rejoiced that it is at least in my power to tender this feeble recognition of his great skill and capacity. To the afflicted I would say, do not despair, for whatever may be the nature of your case, I am confident that you will find relief by applying to Dr. L. J. Czapkay.

"There is balm in Gilead, and there is a physician there."

[L. S.] HENRY WESSLING.

Subscribed and sworn to before me, this 15th day of October, A. D. 1859. City and County of San Francisco, in the State of California.

[L. S.] F. J. THIBAULT, Notary Public.

The undersigned is personally acquainted with Henry Wessling, and knows that the circumstances related in the foregoing certificate are true. He saw Henry Wessling during his illness, and bears willing testimony to the fact of his remarkable cure by Dr. L. J. Czapkay.

[L. S.] A. ROSENHEIM.

Subscribed and sworn to before me, this 17th day of October, A. D. 1859. City and County of San Francisco, in the State of California.

[L. S.] F. J. THIBAULT, Notary Public.

DR. L. J. CZAPKAY's private Medical and Surgical Institute is on Sacramento street, below Montgomery, opposite the Pacific Mail Steamship Company's Office, San Francisco. The Doctor offers free consultations, and asks no remuneration unless he effects a cure. Office hours from 9 A. M. to 9 P. M.

The following Letter,

Which emphatically speaks for itself, was written by the Dean of the Faculty of the Philadelphia College of Medicine, to the editors of the Pacific Medical and Surgical Journal, San Francisco, for publication:

Philadelphia, January 17th 1859.

To the Editors of the Pacific Medical and Surgical Journal:

Gentlemen:—My attention has been called to an article in the December number of your Journal, in regard to the *ad eundem* degree granted by the Philadelphia College of Medicine to Dr. L. J. Czapkay.—When the application for the degree was made to the Faculty, it was accompanied by affidavits and testimonials to the effect that Dr. Czapkay was a regular graduate M. D. of the University of Pesth, had served as Surgeon in the Hungarian army, and was a regular practitioner of medicine. On the strength of these, the degree was granted. The *ad eundem* degree, as its name implies, is conferred on graduates only, and gives us new privileges. Had there been the slightest suspicion of irregularity, the application would have been refused. By inserting this in your Journal, you will do an act of justice to the College, and confer a favor on

Yours, very respectfully, H. RAND,
Dean of the Faculty of the Philadelphia College of medicine.

Certificate:—I, the undersigned, Governor of Hungary, do testify hereby, that Dr. L. J. Czapkay has served during the contest for Hungarian liberty, as Chief Surgeon in the Hungarian army, with faithful perseverence. Whereof I have given him this certificate, and do recommend him to the sympathy, attention, and protection of all those who are capable of appreciating patriotic self-sacrifice and undeserved misfortune.

KOSSUTH LAJOS, Governor of Hungary
Washington City, Jan. 6, 1852

Remarkable Instance of Medical Relief.

Below we publish the certificates of three of the sufferers from the pangs of disease who, having recovered their former health, and impelled by gratitude, make known their cases and remedial agent, and their statements are authenticated by a Notary Public. The demands of society imperiously command their publicity, and we commend their perusal to the attention of all afflicted:

THANKFULNESS IS THE INCENTIVE TO GRATITUDE.

CERTIFICATE.

The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their sufferings may be obtained, feels it his duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay for the permanent recovery of his health.—Borne down by the distressing symptoms incident to the vicious practices of uncontrollable passion in youth, depressed in body and mind, unable to perform even the most trifling duty imposed by the daily advocations of life, I sought the advice of many physicians, who at first regarded my disease as of trifling importance, but, alas after a few weeks, and, in several instances months, of their treatment, I found, to my unutterable horror, that, instead of relief, my symptoms became more alarming in their torture; and being told by one that my disease being principally confined to the brain, medicine would be of little consequence, I despaired of ever re-gaining my health, strength and energy; and, as a last resort, and with but a faint hope, I called upon Dr Czapkay, who, after examining my case prescribed some medicine, which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by the result, I resolved to place myself under his care, and, by a strict obedience to all his directions and advice, my head became clear, my ideas collected, the constant pain in my back and groins, the weakness of my limbs, the nervous reaction of my whole body on the slightest alarm or excitement, the misanthropy and evil forebodings, the self-distrust and want of confidence in others, the incapability to study, and want of resolution, the frightful exciting, and, at times, pleasurable dreams by night, followed by involuntary discharges, have all disappeared, and, in fact, in two months after having consulted the Doctor, I felt as if inspired by a new life—that life which, a short time ago, I contemplated to end with my own hand.

With a view to guard the unfortunate from falling into the snares of incompetent quacks, I deem it my duty to offer this testimony to the merits and skill of Dr. Czapkay, and recommend him to all who may stand in need of medical advice, being assured by my own experience that, once under his care, a radical and permanent cure will be effected.

[L. S.] B. F. FILLMORE.

State of California, county of San Francisco. Subscribed and sworn to before me, this 17th day of April, A. D. 1856. (Signed.)

[L. S.] JOHN MIDDLETON, Notary public.

Card.

Prompted by an honest desire of my heart, I wish to lay before the public a case which deserves a commendation, not only as an act of scientific skill, but that of humanity also. About two years ago I suddenly, and from causes unknown to me, was seized with a fit of Epilepsy, which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement which I met with on attempting it, soon became such (as I was then led to believe) as to defy the skill of any physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning; and, although insensible to the agonies, I yet despised the miseries of my life, and soon learned to look upon those who would render assistance or shelter me from danger as enemies who sought to prolong the existence of my miseries. While in this state, and having previous to my affliction, tasted the sweets of life, I once more was induced to attempt seeking aid of a physician, and, by recommendation called upon Dr. L. J. Czapkay. I told him of my circumstances, and of my inability to reward him for his services, regardless of which, however, he at once undertook my case and with the blessing of God, I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.

[L. S.] MEYER YABLONSKY.

State of California, county of San Francisco, ss.—Subscribed and sworn to before me, this 1st day of August, A. D. 1859.

[L. S.] GILBERT A. GRANT, Notary Public.

A Card.

I, the undersigned, having been under the treatment of Dr. L. J. Czapkay, although unsolicited, feel called upon to give publicity to the efficiency of his treatment, hoping that by doing so I may be instrumental in preventing others from the fearful suffering and misery which I experienced, and which so often result from the pernicious practice of pretenders. My disease has been that of physical and mental debility, which follows in consequence of indiscretions in youth. The agonies which I endured are, perhaps, unnecessary for me to detail, they are known to those who have experienced them. Suffice it to say, that having called the services of Dr. L. J. Czapkay into requisition, all the expectations which I may have formed of him were more than realized. I would therefore recommend Dr. Czapkay to all who may find themselves afflicted with that dreadful malady, my object in so doing being sympathy for suffering humanity, and a heartfelt desire of relieving them.

D. J. DAHLEE, Printer.

State of California, City and County of San Francisco, ss.—On this 31st day of July, A. D., 1859 before me, Wm. C. Jewitt, Notary Public, personally appeared D. J. Dahlee, known to me, who, being duly sworn, did depose and say, that the content of the card herewith signed by him are true.

In witness whereof I have hereunto set my hand, and affixed my official seal, the day and year first above written.

WM. C. JEWETT,
[L. S.] Notary Public.

Spermatorrhœa.

Or local weakness, nervous debility, low spirits, lassitude, weakness of the limbs and back, indisposition and incapability for labor and study, dullness of apprehension, loss of memory, aversion to society, love of solitude, timidity, self-distrust, dizziness, headache, involuntary discharges, pains in the side, affections of the eyes, pimples on the face, sexual or other infirmities in man, are cured by the justly celebrated physician and surgeon, L. J. Czapkay.—His method of curing diseases is new (unknown to others) and hence the great success. All consultations, by letter or otherwise, free.

Importers and Wholesale Dealers!

Entire New and Fresh Stock

WE WOULD CALL THE ATTENTION OF

COUNTRY MERCHANTS

to our unusually large Stock of Goods. Our stock comprises every article in the

Clothing and Furnishing Line.

We have constantly on hand the largest stock and greatest variety of CASSIMERE, WOOL and STRAW HATS, of any house in the city, and our prices for these Goods are less than those of any other house; as we receive them direct from the manufacturer, on Consignment.

Our Stock of

Spring and Summer Goods,

is particularly attractive, and the great feature to the COUNTRY MERCHANT is the unusually low price—less than the cost of importation.

We also keep the STAPLE ARTICLES in the DRY GOODS LINE, which Goods we have purchased in this market under the HAMMER, and are offering them at *New York Cost, and less.*

We publish this Card in order that we may make new acquaintances, and induce those who have not heretofore purchased of us, to call and inspect our Stock.

All that we ask, is an opportunity to SHOW THE GOODS and name the prices, and we have no fear of the result. Good articles and Low Prices are the great inducements to all who purchase to sell again.

Merchants who buy of us can make a good profit, and sell *to their customers* at a low figure.

We remain, respectfully,
Your obedient servant,

Mariposa Gazette

....A married woman was telling a staid single lady, somewhat on the wrong side of fifty, of some domestic troubles, which she in great part attributed to the irregularities of her husband.

"Well," said the old maid, "you have brought these troubles on yourself, I told you not to marry him. I was sure he would not make a good husband."

"He is not a good one, to be sure, madam," replied the woman, "but he is better than none."

....A negro preacher, holding forth to his congregation upon the subject of obeying the commands of God, said:

"Bredern, whateber God tells me to do in dis ya book, (holding up the Bible,) dat I'se gwine to do.—Ef I sees in it dat I mus jump froo a stone wall I'se gwine to jump at it Goin' froo it, 'longs to God; jumpin' at it 'longs to me."

LINES WRITTEN BY A MANIAC ON THE WALLS OF HIS CELL.

Could we with ink the ocean fill,
And were the skies of parchment made,
Were every reed on earth a quill,
And every man a scribe by trade;
To write the love of God above,
Would drain the ocean dry.
Nor could the scroll contain the whole,
Though stretched from sky to sky.

...."Enjoy the blessings of this day," says Jeremy Taylor, "if God sends them; and the evils bear patiently and sweetly. For this day only is ours; we are dead to yesterday, and not born to to morrow.

ODD FELLOWS.—There are at present 97 lodges in this State, numbering 5032 members in good standing, and having a revenue of $57,483 73. The sum expended for relief by the Order during the last year amounts to $20,335, 98. There are also 19 encampments with 500 members, and a revenue of nearly $6,000.—*Gleaner*

DR. ROSENBAUM'S CELEBRATED STOMACH BITTERS.

IS the best remedy ever yet manufactured for the cure of all Diseases, caused by a disordered state of the Stomach and Bowels.

DYSPEPSIA,
INDIGESTION,
CONSTIPATION,
FEVER AND AGUE.

And other similar maladies, yield at once to the beneficial influence of this excellent Medicine. Try them. Test them on your Constitution, and go on your way rejoicing.

CAUTION.

Owing to the unexplained demand for these Bitters, some unprincipled parties have endeavored to counterfeit them. The genuine ROSENBAUM have the name of N. B. JACOBS & CO. branded on each cork, and their signature on each label. Beware also of a worthless article, called ROSENCHE's Bitters, put up in this city. Its external appearance is very much like the true Rosenbaum, but it is useless as a remedial agent, and has only been got up to prey on the reputation attained by Rosenbaum's Bitters. For sale everywhere,

N. B. Jacobs & Co,
Corner Sansome and Commercial Sts

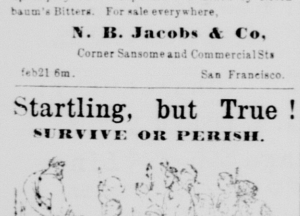
Startling, but True!
SURVIVE OR PERISH.



HOLLOWAY'S PILLS.

The history of this great remedy is the most wonderful medical revelation that the world has ever known. It is not a history written by one man, or even derived from the experiences of one nation, but consists of a compilation of testimonials from the sick of every country—a record, the like of which has never been adduced in favor of any discovery or invention since time began.

BILLIOUS DISORDERS

In whatever form disease attacks the liver, it is repelled and exterminated by this searching, painless and irresistible curative.

Let the sick whom the faculty have abandoned, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unvarying result.

DYSPEPSIA.

The great scourge of this continent yields quickly to a course of these antiseptic Pills, and the digestive organs are restored to their proper tone; no matter in what hideous shape this hydra of disease exhibits itself, this searching and unerring remedy disperses it from the patient's system.

General Debility & Weakness.

From whatever cause, LOWNESS OF SPIRITS, and all other signs of a diseased liver, and other disorganization of the system vanish under the eradicating influence of this all powerful antiseptic and detergent remedy.

SICKLY FEMALES

Should lose no time in trying a few doses of this regulating and renovating remedy; whatever may be their complaint, it can be taken with safety in all periodical and other disorganizations; its effect is all but miraculous.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma,	Fever and Ague,	Lowness of Spirits,
Bowel Complaints,	Female Complaints,	Piles,
Coughs,	Headaches,	Stone and Gravel,
Colds,	Indigestion,	Secondary Symptoms,
Chest Diseases,	Influenza,	Venerial Affections,
Costiveness,	Inflammation,	Worms of all kinds.
Dyspepsia,	Inward Weakness,	
Diarrœa,	Liver Complaints,	
Dropsy,		
Debility.		

☞Caution!—None are genuine unless the words "*Holloway, New York and London,*" are discernible as a *Water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

*** Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in pots, at 25 cents, 63 cents, and $1 each.

☞There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot. dec20

Pacific Ear Infirmary
Important to the Deaf & Deaf Dumb!

DR. PILKINGTON,

Late Proprietor of the Institution for the Deaf at St. Louis, Missouri, and Chicago, Illinois,

HAS arrived and may be consulted at the corner of Montgomery and California streets, (Express Building, up stairs) San Francisco. Early attention is desired.

Deafness, Dizziness, Ear Ache, Catarrh, Noise in the Head, and all discharges from the Ear, Mouth or Nostrils,

ENTIRELY REMOVED.

A number of years of unremitting attention to diseases of the Ear as a speciality has enabled him to make many improvements in all that has heretofore known of Aural Medicine and Surgery and to insure such a degree of success as seems almost incredible. A great number of certificates and testimonials can be seen at his office, from many well known citizens in different parts of the Union.—From the afflicted at a distance, a letter of inquiry enclosing a stamp to prepay answer, will receive immediate attention. Direct to

The Eyes! The Eyes!
DR. E. H. PARDEE,

OCULIST.—After a protracted blindness of more than five years, DR. PARDEE has made himself thoroughly and scientifically acquainted with all diseases of the Eye, and has now been in practice eight years in San Francisco with a success that cannot be surpassed in any part of the United States; and for proof of this he will substantiate by cases that have been cured by him, after having exhausted the skill of all the eminent Oculists in the cities of Boston, Philadelphia and New York. Dr. P. wholly objects to the use of caustic, blue stone—keeping the patient in a dark room, dieting, blistering, cupping—the blue pill at night and salts in the morning, etc., etc. DR. PARDEE has also been remarkably successful in the treatment of Rheumatism, Neuralgia, and all pains about the head; and the frequent calls that he has for his Rheumatic mixture from all parts of this coast, with the many testimonials, is positive proof of its efficacy; and to prevent answering many inquiries by letter, he will state that it can be sent to any part of the State or coast, and each bottle will be accompanied with full directions and a receipt for a liniment, magical in its effects over pain, ingredients of which can be procured any where—price, $10. The ARTIFICIAL EYES inserted by Dr. P. have all the natural movements of the real eye, and cannot be detected even by close inspection. Address
